

Product Overview

MICRO RECTANGULAR ELECTRICAL CONNECTOR

- ❑ Eurasia New Connection is the authorized sales and technical support partner of Sichuan New Connection Technology Co., Ltd. We offer a comprehensive portfolio of high-performance micro rectangular electrical connectors designed for reliable operation in compact, high-density, and mission-critical applications.
- ❑ Our product portfolio includes multiple connector series to meet the diverse requirements of industrial automation, aerospace, defense, rail transportation, energy, and medical industries. Backed by expert technical support and dependable customer service, we deliver reliable interconnection solutions tailored to our customers' needs.
- ❑ The following is a selection of our primary series. [For the complete portfolio and detailed product information, please contact us.](#)

Product Overview

RF COAXIAL CONNECTOR

- We offer a comprehensive portfolio of RF connectors. These connectors are precision-engineered to ensure low insertion loss, excellent VSWR (Voltage Standing Wave Ratio) performance, and superior shielding effectiveness, providing stable and reliable connections for critical systems.
- The following are our main series. Please contact us for more information.

SMA Series

N Series

SMB Series

SMPM Series

SSMA Series

BMA Series

MCX Series

TNC Series

Glass sintered gas-tight connector

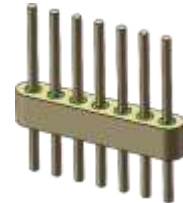

- We offer a comprehensive portfolio of glass-sintered gas-tight connectors, providing an absolute seal against moisture, gases, and extreme environments to ensure long-term signal integrity and operational safety.
- The following are our main series. Please contact us for more information.

J63A Series

J30JMI Series

JYZ Series

Product Overview

J599 series circular connector

- ❑ We offer the J599 series (aligned with GJB599/MIL-DTL-38999 standards), which represents a complete line of high-performance, environmentally sealed circular connectors.
- ❑ The following are our main series. Please contact us for more information.

GJB599 I Series

GJB599 II Series

GJB599 III Series

GJB598 I Series

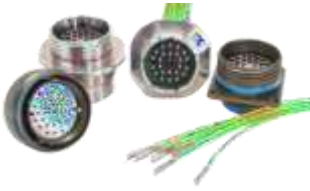

GJB598 II Series

Product Overview

Fiber optic series connector

- We offer a comprehensive range of advanced fiber optic connectors, including expanded beam and hybrid designs. Our fiber optic series are precision-engineered to provide low insertion loss, excellent environmental sealing, and robust performance under extreme conditions of vibration and temperature.
- The following are our main series. Please contact us for more information.

J599A8 Series

J599A6 Series

J599 III Series

J599MT Series

J599E8 Series

J599E6 Series
